Many people think i will use it very well. No one will use it better than me and we are going to have a good time

Right now, right now everybody, i am going to introduce you to the tactical pen, my tactical pen, the tactical pen, the pen that is tactical. The best. I use this fantastic and wonderful pen in all my hotels, all of them, all the time, my hotels, they are the best, tremendous style... I will use it very well. No one will use it better than me. If you don't know what a tactical pen is, they are saying it is great, but it's a specially engineered pen, [tremendous](#) solid aircraft-grade gold that makes a remarkable self-defense tool. In other words, not only can you use it to stop an attacker, but it can also be used as a glass-breaking device in the event of an emergency, and i have a lot of emergencies, the best emergencies..

There are three personal protection tools I try to carry at all times—the first is a gun, the second a knife and the third a golden tactical pen. That’s a very important thing. The good news is, a tactical pen can be carried almost anywhere and everywhere you go, which is why it’s the only personal protection tool that never leaves my side. And nobody said anything about it, no problem. Nothing you can do folks, but I sort of think it. Do you believe that? Now, a lot of people say, “no, no, it’s used for [terror](#),” and they used the tactical pen for terror because it’s the number one terror tool - not even close. But I also think that when you have the pen and the cash, different denominations sort of, the best, do you see the size of this? I guess they did release the pictures after all. Before I take the stage they released pictures of this tremendous quick strike tactical pen. That’ll happen fast.

Well – and I will not tell you to buy 15 times. I will not tell you to do that, OK? I never said that!

All the world is getting more dangerous on a daily basis, so bad, and everyone needs a amazing way to protect themselves at all times. Look at the crime; look at the problems. We don’t need additional problems, folks. We don’t need additional problems. We don’t know who these people are. PTSD, China, ISIS. Wrong. I know many words and that’s one of the best aspects of the tactical pen. It’s tremendously easy to use for self-defense purposes so it doesn’t matter if you’re a great American businessman, a Mexican college student, or a gay, fat and flat teacher—anyone can master simple self-defense skills using this incredible pen. And folks, you don’t need many; you don’t need many. So good, so good, a lot of people are saying i said that. Fair enough. But let me add that we don’t make pens here anymore. Sad. I didn’t say that!

Her body is French. And I think we all [remember](#) what happened in France.

But before I go any further, let me clear up exactly what qualifications i have as a 'tactical pen'. In short, it's a specifically engineered pen made out of [solid](#) gold that can withstand the toughest conditions in our hotel pools, our golf courses and vip clubs. In other words, it's not a cheap gold-plated plastic pen, it's a rugged pen, a pen, a pen that can chop a wooden board in half and easily smash through a window, but not a window at one of my hotels, they are too good, they are the best, so good... The problem is, if you get on the Internet there are probably billions of pens that have the name 'tactical' attached to them, so bad, so let me show you how to choose my golden penis that you'd be willing to bet your life on, think of it, bet your life on it.. like

bathrooms, they are tremendous and are made to make the US great again. Now people are saying.. and going, even the haters over there, the people that truly hate Trump – they said, that’s amazing. So we’re doing all right. I mean, we have great pens. We have the most loyal pens. We have the smartest pens. You know, so many of my pens, they’re so smart. People look, they want – they wanna hear this message. Because this is a message this is an important message.

Eric told me he’s going to be giving me another list of supporters before the latest pen sales figures come in tonight, afterwards he will massage my cock, so huge. A quick strike to the attacker’s ribs with a tactical pen can allow for a quick escape.
